EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 26, line 5, delete "the" and insert --a--.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach an analog-to-digital converter that comprises inter alia a calibration reference circuit within an integrated circuit wherein a comparison input signal is generated from the calibration reference signal if a calibration signal is asserted, wherein if the calibration signal is asserted, the calibration reference circuit is enabled; and if the calibration signal is unasserted, the calibration reference circuit is disabled such that the calibration reference circuit consumes substantially no power, wherein the calibration, wherein the calibration reference circuit is further arranged such that Kevin tapping is employed to provide the plurality of references from the resistor ladder.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
